EDUCATION

Bachelors of Technology in Computer Science **2023-Present**
ITM University Gwalior, M.P.
Current CGPA: 7.87

PROJECTS

Notes App| HTML, CSS, JS, Java, and Spring Boot
Developed a CRUD-based notes application using Spring Boot and basic web technologies, allowing users to create, edit, and delete notes through a simple, intuitive interface.

Weather App | Tkinter, Requests, and Python
Developed a weather forecasting application in Python that allows users to check the weather by city in an easy-to-use interface by retrieving and displaying real-time data from the OpenWeather API.

Traffic Route Optimizer | Data Structures, Dijkstra's Algorithm, and Python
Built a pathfinding app to determine the shortest route between locations using Dijkstra's Algorithm, simulating traffic navigation and route optimization.

Duplicate Transaction Detector | Python, Pandas, and Scikit-learn
Built a machine learning model to detect duplicate bills and financial transactions, improving fraud detection accuracy and reducing manual errors.

Intelligent Query-Retrieval System | Python, FAISS, LLMs, and NLP
Using embeddings and LLMs, an AI-powered system for semantic search and clause retrieval from large documents (PDFs, DOCX, emails) was developed, offering contextual responses with comprehensible justification.

TECHNICAL SKILLS

Languages | Python, JavaScript, Java, SQL
Frameworks | React, Django, Spring Boot, Flask
Developer Tools | Git, Visual Studio Code, Eclipse

ACHIEVEMENTS

Participated in SIH 2024
Participated and won 3rd place in AI Odyssey

EXPERIENCE

PR Team Member – Techfest (ITM University)
Coordinated communication, managed outreach, and collaborated with team members to ensure smooth event promotion.

Volunteer – Alumni Meet (ITM University)
Assisted in organizing and managing the event, ensuring smooth coordination between alumni, faculty, and students.

Soft Skills

Critical thinking, communication, teamwork, flexibility, and problem-solving
